

**TOP NOTCH PLUMBING, HEATING,
&
AIR CONDITIONING, INC.
Woman Owned Business**

Top Notch Plumbing, Heating & Air Conditioning, Inc. has led the industry in *Service, Customer Care*, and *Quality*. Our *Greatest Accomplishments* are the trusted relationships we have with our customers and their referrals. Top Notch provides **24** hour services, trouble shooting, slab leaks, gas lines, remodeling, camera video, heating, air conditioning, emergency service and repairs.

When I decided to open my business January 7, 1990, in Plumbing, Heating, & Air Conditioning, I made the choice to cater to the busy woman. Top Notch prides itself on giving each client the care she deserves for her home and her personal schedule. Top Notch prides on leaving a customers home *cleaner* than when the technician arrived, being on time, and informing our customers is very important as well. We give our clients options for fixing their problems. Top Notch also offers its services to many longstanding-respected businesses in the Inland Empire. We offer *Preventative Maintenance Programs*, saving companies thousands of dollars in unscheduled emergencies that often disrupt their business.

Top Notch has been a leader in the community to help raise money for the Boy Scouts, Cross Roads Christian Church, Santiago High School, and the March of Dimes. I also work very closely with the Chamber of Commerce. Top Notch contributes time and resources to associations and groups dedicated to policing the ethics and practices of the Plumbing, Heating & Air Conditioning Industry. We also are very involved with informing changes in the *laws* regarding Air Conditioning equipment, energy saving ideas, and equipment for homes or businesses. Special Financing is also offered to our customers.

Top Notch and I support in educating the public and community about “*Children*” experimenting with refrigerants and preventing the theft of refrigerant. Each year hundreds, sometimes thousands die from overdosing on inhalants. The high or rush that occurs from “*Huffing*” happens when oxygen is displaced in the body, resulting in brain injury, burns, and tragically “loss of Life!” I support Novent Caps, with each New Unit I provide at no charge to our customer a special cap for their refrigeration unit or units. Top Notch also provides the Novent Caps with each Maintenance Program at no charge.

Top Notch services both *residential* and *commercial properties*. Among our commercial customers there are a few you are probably familiar with such as: Shell Oil Products US, Home Town Buffet, McDonalds, Wal-Mart, NYPD Pizza, Buca De Beppo, KB Homes, Lennar Homes, William Lyons Homes, Fastech and Beazer Homes.

Top Notch has grown at lightning speed, through hard work, passion and the dedication of my team. I attribute Top Notch’s success to our unwavering standards for finding a solution and the professionalism of my team of technicians and office staff.

Top Notch promises when you call us, you get quality and service that is a Notch above the Rest!

Best Regards,
Christie Koontz
President
